

Universal Jointing Consortium

Bulletin Number: UJCB082 Issue 1

30 November 2018

www.ujconsortium.com

Support for X-Ray Camera Type 13 Mk.2 - CAM004AA to Cease at End of 2018 **Support for X-Ray Camera Type 13 Mk.3 - CAM005AA to Cease at End of 2019**

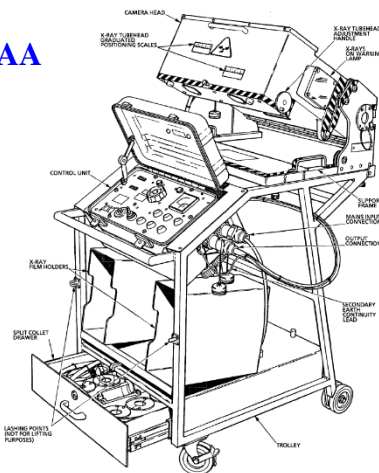

The UJ Consortium advises that support for the previously superseded X-Ray Camera Type 13 Mk.2 (CAM004AA) will cease at the end of 2018 and service is already subject to spare part availability. After that time, maintenance, calibration and repair services will be no longer available. This has become necessary because the manufacturer has discontinued production of the necessary spare parts. This applies to **CAM004AA Mark II models only**.

The UJ Consortium also advises that support for the previously superseded X-Ray Camera Type 13 Mk.3 will cease by the end of 2019. Maintenance, calibration and repair services will not be available after that date and are already subject to availability of spare parts, so support may cease sooner than the end of 2019. This has become necessary because the manufacturer has discontinued production of the necessary spare parts. This applies to **CAM005AA Mark III models only**.

Despite these advised changes, please consult your equipment supplier who will endeavour to accommodate any issues, if parts are available.

Ongoing supply, maintenance and calibration of the Digital X-Ray Camera model **DXr1 (CAM010AA)** are unaffected.

CAM004AA

CAM005AA

If you have any queries concerning these changes, please contact the UJ Consortium Co-ordinator.
