Yokohama, Kanagawa, Japan

SubCom Jointer Training School

Baltimore, Maryland, USA.

Full contact details of all UJ Consortium Training Schools are provided on the UJC Training Schools Contacts page.

UJ Consortium Sponsored Jointer Training Schools

The provision of consistent, high quality jointer training is essential for the successful transfer of Universal Jointing technology from the designers into the field. The following non-UJC member training schools' facilities and instructors are sponsored by a UJC member and are Sponsored as providing 'UJC sponsored' jointer training and certification, ensuring that high quality training is given and that full traceability can be maintained.

Limitations: UJC Sponsored Training Schools may train only their own jointing personnel in Universal Jointing (UJ/UC and UQJ) technologies and must only use the staff trained by the UJC certified instructors for this purpose. UJC Sponsored Training School instructors cannot in turn train or certify other instructors.

SB Submarine Systems sponsored by Global Marine.

Wujing, Shanghai, PR China

LS Marine Solution Co. Ltd. sponsored by Global Marine.

887, Geojebuk-ro, Yeoncho-myeon, Geoje-si, Gyeongsangnam-do, 53204, Korea
